WORK

- Past

Alva Labs \ UX Designer \ Tokyo, Japan, Remote [MAR – MAY 2025]

Contract position creating and managing a design system to be used for the Alva web application.
- SeekOut \ Senior UX Designer \ Tokyo, Japan, Remote [SEP 2022 – MAY 2024]

Contract position conceptualizing and managing the design system for SeekOut web applications. Focus was split between two main applications; Recruit and Career Compass. Main roles included conceptualizing the UX for both applications, while maintaining and applying a consistent design system to both. The design system was created through both Figma and a respective YAML file for individual tokens.
- Microsoft \ Designer II \ Multiple Locations [JUL 2014 – MAY 2022]

[2018–2022] Loop Design Team, Chicago, IL, Remote: Focus on the conceptualization and design of the Microsoft Loop web application. Roles ranged from the initial wireframing and prototyping of the application, to design of the final app silhouette. An ongoing area of ownership was the UX for in-app commanding. This included the overall system of menus and their corresponding logic.

[2016–2018] Shared Design Team, Chicago, IL, Remote: Focus on the collaborative features for then Office 365. Main area of ownership was the commenting experience for Word, Excel, and PowerPoint. This included a visual refresh alongside various features, such as task delegation and email interactions. Other focus areas included in-app presence and timestamps.

[2014–2016] Team Six, San Francisco, CA, USA: Mobile app incubation team under the Microsoft Office brand. Roles included designing and prototyping different applications based on market trends.
- Microsoft \ UX Design Intern \ San Francisco, CA, USA [MAY – AUG 2013]

Twelve week internship for the Microsoft Marketing Solutions team. Internship was split between two main designers to conceptualize a portfolio site for the marketing team to display services that could be provided to potential partners.
